

THE FOLLOWING WERE MONITORED FOR, BUT NOT DETECTED FOR EITHER THE CEDAR OR TOLT SUPPLIES (Monitoring location is after treatment, prior to entry to distribution system for report covering 2007 data):

← Monitoring conducted July 27, 2007.

↑ Monitoring conducted July and December 2007.

→ Statewide waiver given for Dioxin (2,3,7,8 - TCDD), Diquat, Endothal, and Glyphosate monitoring. Ethylene dibromide (EDB) and Dibromochloropropane monitoring waived for surface water systems in some Washington counties, including King County. Acrylamide and Epichlorohydrin monitoring is not required in Washington unless added during the treatment process.

↓ Monitoring conducted May 5, 2007, except Asbestos, which was December 15, 1995.

/ Monitoring conducted September 19, 2002 and December 18, 2002.
