

**WOODINVILLE WATER DISTRICT
KING COUNTY, WASHINGTON
RESOLUTION NO. 3918**

A RESOLUTION of the Board of Commissioners of Woodinville Water District, King County, Washington, related to the system development charges imposed as a condition of connecting to the sewer collection system of the District and repealing Resolution No. 3857.

WHEREAS, pursuant to RCW 57.08.005 (11), Woodinville Water District (the "District") is authorized to charge property owners seeking to connect to the sewer system of the District, as a condition of granting the right to so connect, in addition to the actual cost of connection, a reasonable connection charge so that property owners seeking to connect to the sewer system shall bear their equitable share of the cost of that system; and

WHEREAS, it has been determined by the Board of Commissioners of the District that the cost of the sewer collection system is most equitably distributed among the customers of the District through the imposition of the connection charges provided in this resolution; and

WHEREAS, the Board of Commissioners previously determined to periodically adjust the District's sewer system development charges based on the percentage of change in the Engineering News Record (ENR) construction cost index, and the Board of Commissioners has determined it is necessary and appropriate to adjust such charges; **NOW THEREFORE**,

BE IT RESOLVED by the District Board of Commissioners that, effective January 1, 2019, the following charges be imposed and paid as a condition of connecting to the District's sewer collection system:

1. SYSTEM DEVELOPMENT FEES

Section 1.1 In addition to any other charge or fee imposed by the District, a system development charge shall be payable for all connections made to the District sewer collection system.

Section 1.2 The sewer system development charge shall be based on the number of Residential Customer Equivalents (RCE) multiplied by \$3,349.00. The RCE shall be calculated using King County METRO Residential Sewer Use Certification No. 1057 (1/90) and Non-Residential Use Certification No. 1058 (1/90), and any amendments thereto.

Section 1.3 The sewer system development charge shall be adjusted biennially (indexed, on January 1 of every "odd" year) based on the percentage change in the Engineering News Record (ENR) construction cost index over the prior September to September two-year period for the City of Seattle, and may also be

adjusted periodically based on the findings and recommendations of an analysis/report of the actual cost of existing District sewer facilities and facilities planned for construction within the next ten years and contained in an adopted comprehensive plan.

Section 1.4 System Development Charges shall be paid when application for a side sewer permit is submitted. Applicants for extension or renewal of side sewer permits shall pay the System Development Charge in effect when they submit their application; provided, however, that they shall receive a credit for System Development Charges previously paid when the original permit was issued.

2. OTHER CONNECTION CHARGES

The District shall also charge the property owner all actual costs incurred directly or indirectly by the District as a result of a requested connection, including, but not limited to, all engineering, legal, administrative, and inspection costs.

Resolution No. 3857 is hereby repealed as of December 31, 2018, and Resolution No. 3918 shall be effective January 1, 2019.

ADOPTED by the Board of Commissioners of Woodinville Water District, King County, Washington, at the regular open public meeting thereof this 18th Day of December 2018.

Attest:

Dale Knapinski – Secretary

Pamela J. Maloney – President

Karen Steeb – Vice President

Dale Knapinski – Secretary

Tim Schriever – Commissioner

Chuck Clarke – Commissioner
